SUMMARY

I am a **Junior Full Stack Developer** with a strong focus on **Front End**, specialized in modern technologies such as **JavaScript, TypeScript, React, Next.js, and MongoDB**. During my training at Henry Bootcamp, I led the development of our final project, increasing my skills in **communication, teamwork, and adaptability**. I am currently seeking my first professional challenge, **motivated to contribute value from day one and continue growing in the software development field**.

EXPERIENCE

Full Stack Developer Sep '25 — Present
ZatoBox Remote

- Unpaid Internship
- **I collaborate on the platform's daily refactoring and optimization**, focusing on improving the code structure for greater scalability and maintainability.
- **Redesigned user interface styles** to enhance the user experience and overall aesthetics

Full Stack Web Development Course Mar '25 — Sep '25
Henry Spain

- Duration: **800 hours, full-time**
- Intensive training in developing **complete web applications**, covering both frontend and backend. Hands-on experience with technologies such as **JavaScript, TypeScript, React, Redux Toolkit, MUI, Node.js, Express, MongoDB, PostgreSQL, Git, GitHub, Scrum, and Testing**.
- Completed **4 individual projects** and **1 group project**, applying knowledge in real-world scenarios and developing both technical and soft skills, including **teamwork, effective communication, problem-solving, and time management**.

Travel Apr '24 — Mar '25
Career Break Spain

- After my time in New Zealand, I took the opportunity to travel and explore new cultures.
- I spent a couple of months in Southeast Asia, England, and finally Spain, where I currently reside and study to further my career in the tech industry.

Working Holiday Nueva Zelanda May '23 — Apr '24
ENZED Exotics Ltd New Zealand

- In New Zealand, I gained experience in different field jobs, especially at Enzed Exotic, where I spent most of my time.
- A family-run company specializing in the cultivation of a unique fruit called Kiwano.
- Gained experience in all stages of production, from planting to cultivation and finally taking on the role of supervisor and team leader.

Professional Driver Apr '19 — May '23
Jose Rodriguez Transporte Uruguay

- Professional driver in a private company, handling airport transfers, patient and hospital staff transportation, and the delivery of critical medical supplies (blood and plasma).

EDUCATION

Full Stack Developer, Henry Mar '25 — Sep '25
Argentina

- Completed an **intensive training program** focused on building **modern and scalable web applications**. **Gained hands-on experience with JavaScript, TypeScript, React, Next.js, Express, and MongoDB**, with a strong emphasis on Front-End Development. In addition to technical skills, I was able to increase the key soft skills such as **effective communication, teamwork, problem-solving and adaptability** were strengthened, as well as the ability to successfully lead the final project within a collaborative environment.

Digital Marketing Analyst in Marketing, Universidad de la Empresa Mar '20
Maldonado

- Training focused on digital marketing strategy, with an emphasis on content creation, online advertising, and community management.

CERTIFICATIONS

Google AI Essential, Coursera

Introduction to Python, Henry

PROJECTS

Lienzo Culinario [Link](#)

- **My first team project**, where I was part of the Front End team. We developed a food e-commerce platform focused on users' specific diets. It was a three-week project as the final requirement to graduate from the bootcamp, which we successfully completed.
